FAQ's

Do you have different packages?

We don't do set packages as we don't want you paying for something you don't want or need. We would rather tailor exclusively to your requirements to make your day extra special.

What are your prices?

Prices start from £200. For larger events, we don't have a hire charge, just a minimum spend on drinks and food (in house catering).

Will the premises remain closed to the public?

You can opt to have exclusive use of the garden area which will be closed off for your special event.

Do you provide flowers for my wedding?

We have an in-house wedding and special event florist who has had many years experience in the industry. This would be included in your package should you request it.

Can you make my wedding invitations?

We also have an in-house Artwork & Graphic Designer who has had many years experience in the industry in corporate and private level. This can be included in your package should you request it.

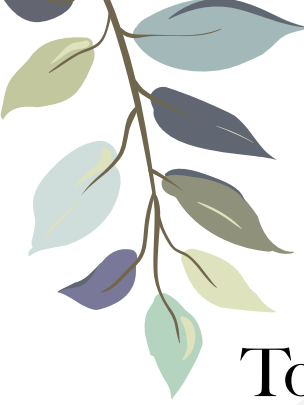

Is the wedding venue accessible for guests with disabilities?

As much as we wish we could be accessible to all, due to the way the pub was built 150 years ago back in 1872, when things like accessibility were not thought about like they are today, we unfortunately can't be. Because of the steps, we do not have any wheelchair access.

Are we allowed to have confetti?

We kindly ask that you don't use confetti as most confetti isn't eco-friendly.
